**FEEDBACK OF PARTICIPANTS FROM
PREVIOUS WORKSHOP**

Hello chaskar sir, this is Kajal Gore from TY Bpharm. I just wanted to say that the IUPAC session arranged by you was extremely helpful today (as solve the structures so confidently that I was for understanding out" problem and solving it. Thanks again sir!

Hi sir i got my pharmaceutical paper yesterday and i got 73/75. And you know i used to score below 40 in OC in my chemistry paper because i never understood structures. So thank you again sir!

It was really useful from exams point of view. There should have been more examples solving these stuff!

Umeshwara, TY Bpharm

That course seriously helped me a lot. I had some issues regarding IUPAC in our taught that really really so thank you so much to grasp or for that course!

Jagruti, TY Bpharm

The seminar was really very fruitful and also many concepts got cleared.

Yashica Shah, LY Bpharm

Session of first year Bpharm comprises of compounds that have huge structures and with huge structural comes complicated nomenclature. The IUPAC Seminar conducted on the 20th and 21st of February not only helped in brushing our concepts but also cleared any of our doubts related to our current topics. The session was nothing but fruitful!

Where he firmly changed wrong belief about IUPAC Nomenclature in Students mind. He totally resolved the fear in the mind of students about chemistry structures & created the confidence in students regarding IUPAC nomenclature of structures. He also arranged one practical session in which he given the structures & students had hands on IUPAC nomenclatures.

Total 10 students from third year B. Pharmacy attended the workshop.
