It means the person who favours many others lives to make them a real life is really lived a human life otherwise everyone lives for self one.

The man who gives life to other is really a human one as if simple crow can also get bread and butter to pass the life.

As being Indian we are taught and sacrament with subconscious impressions of Donation and helping the needy one. Food, clothes , Art , Knowledge and different other things can be donated to the needy fellows to make their problem solved and a life can be saved. Even as per Indian Culture everyone should donate 1/3rd of the income for social causes. A good Donation doesn't mean the human doesn't need it and once the thing is of no use it should be donated . Most of the times neither of the things like money, food, shelter cant save a life and the need is of certain god made things like blood, and more to it is organ. Till blood donation we people are convinced but many still are unknown or reluctant to hear about Organ or body Donation .

With the aim of awareness related to awareness about Human Organ Donation on occasion of Indian Organ Donation Day i/e. 27th November DLLE(Department of Lifelong learning and extension) Under SENSE club of Yashwantrao Bhonsale College of Pharmacy Sawantwadi in Collaboration with Rotary Club Sawantwadi organised Virtual Webinar with Zoom credentials at 4.00 PM

अवयवदान व देहदान

- माणसाचे शरीर असंख्य अवयवांनी बनलेले आहे.
- जिवंतपणी माणसे सर्व अवयवांचा पुरेपुर उपयोग करतात.
- मात्र आज जगात अनेक लोक असे आहेत, जे विविध अवयवांच्या कमतरतेमुळे पिडामय जिवन जगतात व प्रसंगी त्यांचा मृत्यू देखील ओढवतो.
- यावर उपाय म्हणून अवयव प्रत्यारोपण ही संकल्पना अस्तित्वात आली, त्यायोगे एका व्यक्तीचे अवयव दुसऱ्या गरजवंत व्यक्तीस दान करून, जीवनदान देणे शक्य आहे.
