Introduction:

National Science Day has been celebrated in Yashwantrao Bhonsale college of Pharmacy, Sawantwadi through DLLE department in collaboration with SPANDAN club of college. The prime objective of this event was to express that the science of today is the technology of tomorrow. Students show their gratitude towards our great scientist. 28th of February, 1928 was the great day in India when an invention in the field of Indian science was completed by the famous Indian physicist, Sir Chandrasekhara Venkata Raman. He was a Tamil Brahmin and first one in the science, who had researched such invention in India. To commemorate and honor this event always in the future, the 28th of February was asked to the Indian Government to designate as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC) in the year 1986. From then, the national science day was started celebrating all across India.

Objectives:

- ✓ To appreciate role of science in daily life.
- ✓ To support & promote science & knowledge in daily life and eradicate superstitions from

our society. 3. To show gratitude towards our great scientist.

- ✓ To display all the activities, efforts and achievements in the field of science for human welfare.
- ✓ To give an opportunity to the scientific-minded citizens in the country.
