खुद बचें, अपनों को बचाएं!

COVID Vaccination for children
between 15-18 years of age to
start from 3rd January, 2022

Organised By  **BHONSALE
KNOWLEDGE
CITY**

INTRODUCTION:

Vaccination is a simple, safe, and effective way of protecting you against harmful diseases, before you come into contact with them. It uses your body's natural defenses to build resistance to specific infections and makes your immune system stronger.

The Indian Covid-19 pandemic situation is getting worse day by day. And it is believed that it will come to an end when enough Indians are vaccinated. The strategy is getting vaccinated quickly and effectively to control the spread of the virus.

India is suffering the worst days of the pandemic, and while staying home, maintaining social distancing and wearing masks helps to control the spread of the virus, it is believed that the vaccination drive will be the last resort as it can protect the general public from this deadly virus

OBJECTIVES:-

- Reduction of pressure on the healthcare system
- Reduction of overall COVID-19 severity and mortality
- Re-opening of society
- Disease elimination

ABOUT THE PROGRAM :-

Vaccination drive was arranged for the children in the age group of 15 – 18 years. Many students took the benefit of the covid-19 vaccination drive.
