INTRODUCTION:-

In order to encourage more young voters to take part in the political process, Government of India has decided to celebrate January 25 every year as "National Voters' Day". It has been started from 25 January 2011 to mark Commission's foundation day.

India is the world's largest democracy and has continued to be a democracy since the last seven decades. In a democracy voting in order to choose one's representative is the most fundamental and crucial aspect. India has seen 17 general elections and numerous state and local body elections since independence. In India 25 January is commemorated as national voters day.

The Union Cabinet approved the Law Ministry's proposal to observe January 25 as Voters' Day in a meeting headed by then-Prime Minister Dr. Manmohan Singh in 2011. The primary objective of Voters' Day is to boost voter registration and encourage the nation's youth to use their right to vote.

The day marks the foundation of India's election commission which was established on 25 January in 1950. This day is intended to encourage, facilitate, and optimise new voter registration and to promote the electoral process among newly eligible young voters. The overall purpose of the day is to engage the younger generation, which has reached the age of majority but is hesitant to participate in the nation-building process.

OBJECTIVES:-

1. Promotes the importance of voting in the electoral process.
2. The main objective of Voters' Day is to increase voter enrollment and encourage the youth of the nation to exercise their right and duty to vote.
3. The main purpose of the NVD celebration is to encourage, facilitate and maximize enrolment, especially for the new voters.
4. to spread awareness about the importance of voting in a democracy.

ABOUT THE PROGRAM :-

A google form was prepared & the link was circulated among the students & were told to forward it to the people in their surrounding. Different questions were asked to know about people's knowledge regarding elections & their views towards voting.

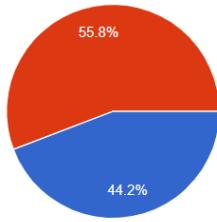

The survey was based on the theme: 'Electoral Literacy for stronger Democracy'. 138 responses were obtained for the survey. From the responses obtained it is concluded that most of the people have a good knowledge regarding voting. With this we can say that our nation has good electoral literacy to build up a stronger democracy. Were collected and analysis was done to compare the individual response data.
