### **Introduction:**

Organ Donation is donating a donor's organs like heart, liver, kidneys, intestines, lungs, and pancreas, after the donor dies, for the purpose of transplanting them into another person who is in need of an organ.

According to a survey In India every year about: 500,000 people die because of non-availability of organs, 200,000 people die due to liver disease, and 50,000 people die because of heart disease. Moreover, 150,000 people await a kidney transplant but only 5,000 get among them. The organ donor can play a big role in saving others' life. The organ of the donor can be transplanted to the patient who needs it urgently.

## **Objectives:**

1. The aim of this workshop is to motivate normal human beings to pledge to donate organs after death.
2. To spread awareness about the importance of organ donation amongst youth.

## **About the program :**

**Yashwantrao Bhonsale College of Pharmacy, Sawantwadi** in Association with The **Federation of Organ & Body Donation & Regional cum State Organ & Tissue Transplant Organization (ROTTO SOTTO)**, West and Maharashtra jointly organized **Organ Donation Volunteers Training Workshop** on Sunday; 27th February 2022.
