Introduction :

To contribute to the theme, 'BEACH CLEANING' associated with a better understanding of the issue of marine litter and its impacts.

Beaches are the places to cure all bad moods. It gives us the feeling of being relaxed and satisfied. so, it's individual responsibility to maintain the beauty of this beaches.

Pollution degrades and destroys unique beach habitat needed by animals and plants. Clean beaches have many benefits for human health because the polluted beaches may imperil lives by beach accidents. Therefore encouraging beach clean-ups are vital to mitigate the problems caused by water pollution to marine life.

As a small step from our side we the students of Yashwantrao Bhonsale College of Pharmacy, Sawantwadi organized a DLLE community level activity i.e., beach cleaning and it's effects on human and aquatic life and environment with the help of shiroda grampanchayat clerk under the guidance of Hon. Dr. Vijay Jagtap sir, Principle of Yashwantrao Bhonsale College of Pharmacy.

Objectives :

1. To raise awareness in the population about marine pollution.
2. To contribute with it the reduction of garbage and plastic in the ocean.
3. To remove trash from beaches and water waves.
4. To popularize the concept of waste management.

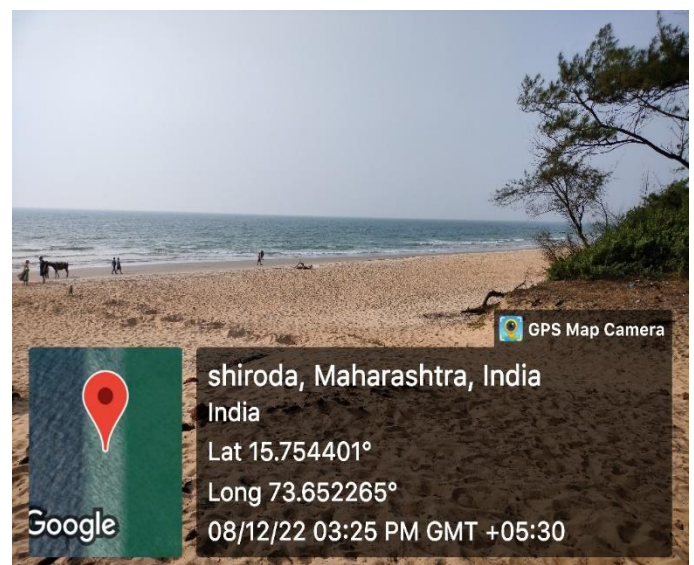

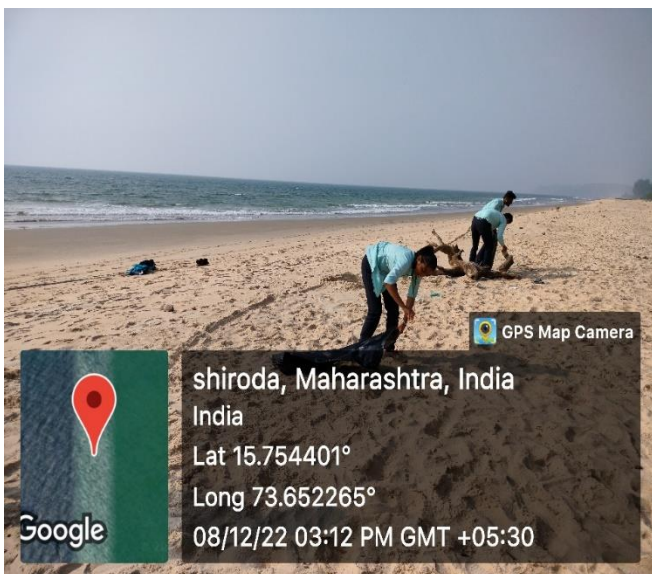

About this activity:

On 08 December 2022 beach cleaning was conducted this activity at Shiroda Beach, Shiroda. Many items like broken glasses, sharp metals or hard plastics may injure beach-goers physically were collected. This is one of the most harmful effect of pollution on environment so the group actively performed this activity to clean the beach and make a small contribution in making the environment pollution free.
