Objective and Outcome:

Objective:

- The objective of Clean-up drive is to help spread awareness about waste management among the local people.
- Protecting biodiversity and preserving the environment.
- Collect plastic and send it for re-cycling.

Outcome:

- Cleanup program can not only reduce pollution, but – by sorting neighborhood trash and recycling as much as possible – can help to teach residents about recycling and about activities that will reduce the neighborhood's carbon footprint.
- Maintaining a clean environment reduces pollution, preserves our biosphere, protects endangered species, and also helps preserve the earth's natural resources. In society, the state of cleanliness of a society represents the mindset.

About the Program :

Many tourists from all across the konkan and the localities come to visit Narendra Dongar. But over a year there are a lot of pollution at Mountains, there are maximum trash that is left by those who visit the mountains this has degraded the beauty of our mountains, threatening our Biodiversity and mammoth of climate changes, so to address the problems of waste in the Narendra Dongar, Mountains are the places to cure all bad moods .It gives us the feeling of being relaxed and satisfied so, it's individual responsibility to maintain the beauty of this mountains.

Every year about 100 million tons of plastic are produced all over the world . Out of this, 25 millions tons of non-biodegradable plastic gets accumulated in environment.

Therefore encouraging mountain clean-ups are vital to mitigate the problems caused by plastic pollution to marine life.

As a small step from our side, the students of Yashwantrao Bhonsale College of Pharmacy, Sawantwadi organized a DLLE's community level activity i.e. Spreading awareness about plastic pollution and its effects on environment with the help of Forest Department Officer Mr. Ashok Kashiram Gawade Sir.

Cleanliness Drive at Narendra Dongar was organized on 11th December 2022 i.e. Sunday the occasion of World Mountain Day.

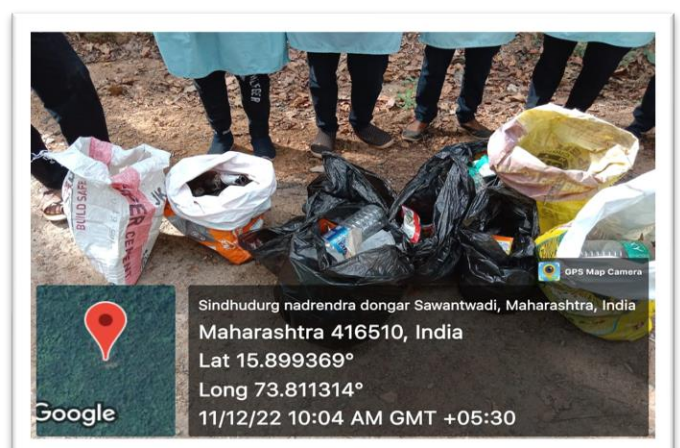

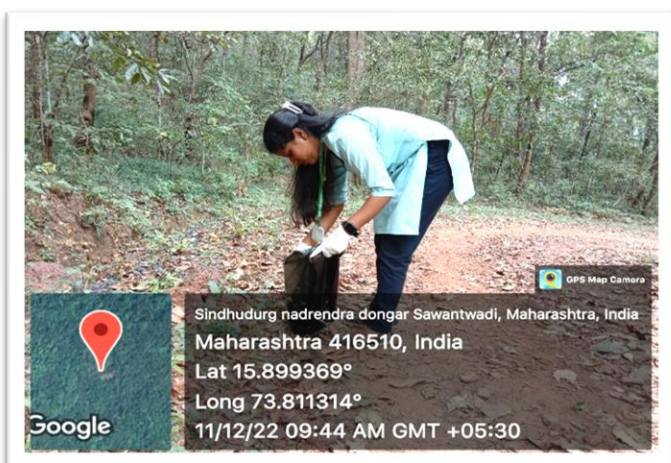

Over half of humanity relies on these mountain reserves drawn from mountain ecosystems. In addition, mountains are home to a wide range of flora and fauna, comprising nearly half of the world's biodiversity. Mountains are the backbone to life on Earth, and their conservation is critical to our survival. Thus, Cleanliness of mountain is very essential.

Forest Officer Mr. Ashok Kashiram Gawade Sir guided and helped the students throughout the whole Cleanliness Drive. He was one of the helping hands along with Mrs. Vaishali Avdhut Waghmare Ma'am.
