Objectives :

- 1) To make aware the students of primary school regarding the increasing problem of air pollution in ecosystem.
- 2) To encourage the students about how to reduce the air pollution in our daily life.
- 3) To encourage the students about use of bicycles instead of private vehicles.
- 4) To create ecofriendly environment by reducing the air pollution.

About the Activity :

Air pollution is a pressing global concern arising from the release of harmful substances into the atmosphere. These pollutants include particulate matter, nitrogen oxides, sulfur dioxide and volatile organic compounds, originate from various sources such as industrial activities, vehicle emission and agricultural practices

The consequences of it impacts both human health and environment. Respiratory illness, CVS problems and other health issues are linked to air pollution.

On 2nd December 2023 group of 10 students visited the Sharda Vidyalaya Malgaoan, Sawantwadi Z.P School. The students made the interactive posters and pictorial diagrams regarding the awareness on reducing the air pollution and have shared knowledge to the students on air pollution, its effect and how to reduce and control air pollution. The event was successfully and satisfactorily accomplished

Details Of Participants : No. Of Participants : 50

Glimpses of the event:
