TREE PLANTATION DRIVE

Name of activity. : **Tree plantation Drive**
Date : **07 February 2024**
Organized by : **DLLE**
Venue : **Near charathe school, Sawantwadi**
Event co-ordinator : **Ms. Sheetal S. Samant**
Event advisor : **Dr Vijay A Jagtap**

Objectives :

- The main objective behind this activity was:
- To beautify the areas for scenic beauty.
- To reduce the surface run-off discharge and checking soil erosion along the embankments.
- To reduce temperature and increase humidity.
- To reduce noise pollution to the neighboring household population.
- To reduce the impacts of air pollution and dust as trees and shrubs are known to be natural sink for air pollutants.
- To provide much needed shade on glaring hot roads during summer.
- Moderating the effect of wind and incoming radiation.
- To define the ROW especially highlight sharp horizontal curves during night.

About this activity:

Tree planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purposes. It differs from the transplantation of larger trees in arboriculture and from the lower-cost but slower and less reliable distribution of tree seeds. Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

Details of participants :

Number of participants : 35
