## **Process Optimization and Validation in Pharmaceutical Manufacturing**

Name of the activity: - Process Optimization and Validation in Pharmaceutical Manufacturing Date: - 16/01/2024 Organized by: - DLLE Guest Speaker : - Mr. Prasad Kanitkar DLLE Extension teacher: - Mrs. Gayatri Athalekar Convener: - Dr. Vijay Jagtap

### **Objectives:-**

1. Skill Development: Foster skill development by providing participants with practical

insights and real-world applications in pharmaceutical manufacturing.

- Career Guidance: Offer career guidance by leveraging the industry experience of Mr. Prasad Kanitkar, helping participants understand the industry landscape and potential career paths.
- Networking Opportunities: Create networking opportunities for seminar attendees to connect with Mr. Kanitkar and other industry professionals, facilitating potential collaborations and mentorship.
- Knowledge Transfer: Facilitate the transfer of knowledge from an industry expert to students, academics, and professionals, promoting a more comprehensive understanding of pharmaceutical processes

#### Introduction:-

- Collaborative Effort: Highlight the collaborative effort between the DLLE cell of Mumbai University and the SENSE Club in organizing the seminar, showcasing a commitment to lifelong learning and extension activities.
- 2. Relevance: Emphasize the contemporary relevance of the seminar, addressing current challenges and advancements in pharmaceutical manufacturing.
- 3. Interactive Format: Describe the interactive format of the seminar, encouraging participant engagement through Q&A sessions and discussions.

#### Seminar Highlights:-

- 1. Case Studies: Incorporate case studies and practical examples shared by Mr. Kanitkar, illustrating the application of process optimization and validation in real-world scenarios.
- 2. Emerging Trends: Discuss emerging trends in pharmaceutical manufacturing highlighted during the seminar, providing participants with insights into the future of the industry.
- 3. Participant Involvement: Acknowledge the active involvement of participants in the seminar, showcasing their enthusiasm and eagerness to learn from industry experts.

#### **Conclusion:-**

- 1. Knowledge Retention: Emphasize the long-term impact of the seminar on knowledge retention, as participants gain practical skills and insights that can be applied in their academic and professional journeys.
- 2. Feedback Mechanism: Implement a feedback mechanism to gather insights from participants, allowing for continuous improvement in future seminars and events.
- Post-Seminar Resources: Provide information about any resources, such as recorded sessions or supplementary materials, to support ongoing learning and reference for the participants.
- 4. Gratitude: Extend gratitude to Mr. Prasad Kanitkar for his willingness to share expertise, acknowledging his contribution to the educational and professional development of the seminar attendees.

# **Details of Group members:-**

Number of Students	10
No of Audience	<b>98</b>
Number of Teachers	1
Total	109

### Name of the members:-

- 1. Mr. Sarthak Ganesh Khamitkar
- 2. Ms. Shravani Subhash Desai
- 3. Ms. Bhakti Sanjay Morye
- 4. Ms. Anuja Uttam Kudav
- 5. Ms. Tanaya Narayan Keluskar
- 6. Ms. Pranita Vishnu Gawas
- 7. Ms. Prajakta Manohar Bote
- 8. Ms. Samiksha Sandip Gawade
- 9. Mr. Ravikant Devidas Gawas
- 10. Ms. Anuja Anil Sarang
