

Objectives :

The main objective behind this activity was:

- 1- Awareness
- 2- knowledge
- 3- Attitude

About this activity:

Pollution whose source originates directly from industry is known as industrial pollution. After the Industrial Revolution, manufacturing and technology made advances, which resulted in more factories and more industry. These factories emitted smoke into the air

There are various causes of industrial pollution. Smoke containing undesirable gases like carbon dioxide, Sulphur dioxide and carbon monoxide coming out from the industries causes air pollution. The untreated water from the industries is released into water bodies, causing water pollution.

Details of participants :

Number of participants : 35

Glimpses of the event:

Report prepared and approved by :

Ms. Sheetal S. Samant
Event coordinator

Dr Vijay A Jagtap
