OBJECTIVE:

- ❖ First year students of B. Pharmacy can understand basic concepts of IPR by law experts
- ❖ Students can understand basic introduction of Patents
- ❖ Students can understand basic introduction of Copyrights
- ❖ Students can understand basic introduction of Trademarks
- ❖ Students can understand basic introduction of Designs

About The Programme:

Glimpses of YBCP IPR Cell organised an "Introduction of Intellectual Property Rights" session for First Year B. Pharmacy students dated 2/3/2024 at 10.30 am.

The session was initiated by welcome address by Dr. Rohan Barse. Further Dr. Gaurav Naik introduced the students about experts. Further session conducted by Adv. Srisha Kulkarni madam (Lecturer at SPK Law College Sawantwadi). Session established the concepts patent, copyright, trademark and design to the first year pharmacy students.

It will help them to study Pharmacy knowledge with creative thinking. It will be helpful to students to understand & implemented the concepts of patent in the relevant pharmaceutical research and developments.
