

09 Jan 2025

Awareness program on Waste Disposal Management

Name of activity : Awareness program about Waste Disposal Management.
Date : 09 Jan 2025
Day : Thursday
Organized by : DLLE
Club : SENSE Club
Venue : Vazarwadi ZP School, Sawantwadi.
Type : Awareness Session
Mode : Offline
Number of beneficiaries : 10
Event co-ordinator : Ms. Sheetal S. Samant & Mr. Jatin A. Tekawade
Event advisor : Dr Vijay A Jagtap

DLLE UNIT OF SENSE CLUB OF
**YASHWANTRAO BHONSALE
COLLEGE OF PHARMACY**
Sawantwadi, Sindhudurg, Maharashtra
Organizes

**Awareness program about Waste
Disposal
Management.**

Saturday, 09th January 2025

Venue: Vazarwadi ZP School, Sawantwadi.

Ms. Sheetal Samant
Extension Teacher

Dr. Vijay A. Jagtap
Principal

Objectives :

- Environmental Protection – Prevent pollution of air, water, and soil by ensuring safe disposal of hazardous and non-hazardous waste.
- Resource Conservation – Promote recycling and reuse of materials to reduce the depletion of natural resources like wood, metals, and fossil fuels.
- Public Health & Safety – Minimize health risks by managing waste efficiently, reducing exposure to harmful substances and disease-causing organisms.
- Sustainable Waste Disposal – Implement eco-friendly disposal methods such as composting, recycling, and waste-to-energy technologies to minimize landfill use.

About the Activity :

Waste management involves a series of activities aimed at reducing environmental pollution, conserving resources, and promoting public health. It begins with waste collection and segregation, where biodegradable, recyclable, and hazardous waste are separated for proper disposal. Recycling and composting help convert waste into reusable materials, reducing landfill use and conserving natural resources. Waste treatment methods, such as incineration and waste-to-energy technologies, help minimize waste volume while generating energy. Public awareness campaigns educate individuals and businesses on responsible waste disposal, encouraging sustainable practices like reducing plastic usage and promoting the circular economy. Governments and local authorities enforce waste management regulations to ensure compliance with environmental laws. Additionally, community participation plays a crucial role, with initiatives such as clean-up drives, e-waste collection programs, and sustainable packaging solutions gaining traction. By integrating these activities, waste management helps create a cleaner, healthier, and more sustainable environment while supporting economic growth and resource efficiency. On 09th January 2025 group of 11 students visited at Vazarwadi ZP School, Sawantwadi and participated in the Awareness program about Waste Disposal Management Organized by the DLLE Unit of the college. The main focus of the program was explaining to people about the Waste Disposal Management.

Details Of Participants :

No. Of Participants : 10

Glimpses of the event:

Report prepared and approved by :

Mr. Jatin A. Tekawade
