Principal  
YBCP

### **Objectives :**

- To raise awareness verbally: Inform the community about government initiatives supporting distance education through verbal communication.
- To Promote Government Schemes: Highlight various government programs, scholarships, and financial assistance available for distance education.
- To Encourage Participation: Motivate individuals to take advantage of government resources to pursue distance education.
- To Increase Accessibility: Help make distance education more accessible by informing the community about available financial support and programs.
- To Empower Local Learners: Empower residents of Banda to access education through government-backed schemes by providing verbal guidance.

### **About the Activity :**

The awareness campaign in Banda focused on verbally informing the local community about government initiatives supporting distance education. Through direct conversations and informal discussions, the initiative aimed to spread knowledge about government scholarships, financial aid, and other resources designed to make distance learning more accessible. Residents were verbally guided on how to apply for these schemes and encouraged to explore distance education as a viable option for further studies. This personal interaction allowed for immediate feedback and questions, making the campaign interactive and effective in increasing awareness of the available educational opportunities.

### **Details of Participants :**

No. Of Participants : 10

## Glimpses of the event:

**Report prepared and approved by :**
