### Introduction :

Our environment faces several problems and many of these seem to be worsening with time, bringing us into a time of a true environmental crisis. Therefore, enhancing public awareness of these problems is essential to lessen their detrimental effects. Environmental pollution is increasing day by day and imposing severe and irreversible damage to the world. It is of different types: air, water, soil, noise, light, etc. Urbanization and technological development have put the survival of the planet in danger by degrading the quality of the environment's essential elements—air, water and soil—due to the release of hazardous waste from factories like plastics, heavy metals, nitrates, burning of fossil fuels, acid rain, oil spills and industrial toxins.

The NSS unit of Yashwantrao Bhonsale College of Pharmacy, Sawantwadi conducted a Paper bag making and distribution drive on Wednesday, 28<sup>th</sup> August 2024. The students of Yashwantrao Bhonsale College of Pharmacy prepare Paper bags and distributed to the local chemist stores and vendors .
